PERSONAL PROJECTS

Github Profile App

- Simple Github Api webapp where user can search their profile and access their repositories.
- Used Html ,Css and Javascript.
- <https://github.com/ankita-226/Github-profile-app>

Brain Storming Game

- The Brainstorm Game and it's fabulous for encouraging user to, developing brainstorming skills .
- In this game user have to select two cards at a time if it matches then it will turn out in black color and if it is not then play until it does not match and all the time the position of card changes.
- Html,CSS ,Javascript.
